DEPARTMENT OF CHEMISTRY
NATIONAL INSTITUTE OF TECHNOLOGY KURUKSHETRA
THEORY EXAMINATION (Regular/Re-appear)
End semester question paper-2024

Month and year of examination: Nov/Dec- 2024
 Programme: B. Tech/B.Arch 1st Year (1st Semester)
 Subject: Energy and Environmental Science
 Course code: CHIC101
 Number of questions to be attempted: 05
 Total no. of questions: 06

Maximum marks: 50
 Time allowed: 03 hours
 Total no. of pages: 01

Note: Unless stated otherwise, the symbols have their usual meanings in context with the Subject. If any data is missing assume it yourself.

S.No	Description	Marks
1	A) Discuss the energy flow of the ecosystem. Give a neat diagram.	5
	B) Environmental studies are multidisciplinary in nature, describe with justification.	5
2	A) Write a note on any two (i) Eutrophication (ii) BOD (iii) Peroxyacetyl nitrate (PAN)	5
	B) What is bio-diversity and explain in-situ and ex-situ conservation with examples.	5
3	A) What are the uses of dams. How it affects the forest and tribal people.	5
	B) What is thermal pollution, discuss the control methods.	5
4	A) Identify the air pollutants from industry, and discuss their effects. Suggest any two suitable control measures.	5
	B) Discuss the environmental impacts related to deforestation and acid rain with examples.	5
5	A) List out and discuss the problems related to non-renewable energy. Do you think electric vehicles offer solutions to urban environmental problems?	5
	B) Explain the role of greenhouse gases in global warming and climate change. Discuss the national and international efforts to curb climate change threats.	5
6	A) What are the various legal measures taken in India to protect the environment?	5
	B) Write a detailed note on urban water conservation strategies	5
